CONSENT FOR TELEHEALTH CONSULTATION

Telehealth is a way to visit with healthcare providers from any place, including your home. Your health care provider will not be in the same room as you, so it may feel different from a normal visit. Canopy Relational Care, LLC, uses telehealth technology designed to protect your privacy. If you use the Internet for your visit with Provider, make sure you are on a private and secure connection.

1. I understand that Canopy Relational Care, LLC wishes me to engage in a telehealth consultation.
2. I understand that the limitations of the video conferencing technology that will be used to affect such a consultation will not be the same as a direct client/health care provider visit due to the fact that I will not be in the same room as my provider.
3. I understand that a telehealth consultation has potential benefits including easier access to care and the convenience of meeting from a location of my choosing.
4. I understand there are potential risks to this technology, including interruptions, unauthorized access, and technical difficulties. I understand that I can discontinue the telehealth consult/visit if it is felt that the videoconferencing connections are not adequate for the situation.
5. I have had a direct conversation with my provider, during which I had the opportunity to ask questions in regard to this procedure. My questions have been answered and the risks, benefits and any practical alternatives have been discussed with me in a language in which I understand.

CONSENT TO USE THE TELEHEALTH BY SIMPLEPRACTICE SERVICE

1. Telehealth by SimplePractice is NOT an Emergency Service and in the event of an emergency, I will use a phone to call 911.
2. Though my provider and I may be in direct, virtual contact through the Telehealth Service, neither SimplePractice nor the Telehealth Service provides any medical or healthcare services or advice including, but not limited to, emergency or urgent medical services.
3. The Telehealth by SimplePractice Service facilitates videoconferencing and is not responsible for the delivery of any healthcare, medical advice or care.
